DETAILED ACTION

The amendment filed 05/01/2007 was entered. Claims 1-3 and 5 are pending.

Claim 4 was cancelled.

Abstract

The new abstract was entered.

Claim Rejections - 35 USC § 112, 2nd Paragraph

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. As a result of the amendment filed 05/01/2007, the rejection is withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3-5 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 01/32164. US Pat. No. 6,864,254 is from the same patent family as the reference and is cited in this action. Applicants' arguments are persuasive. The rejection is withdrawn.

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given during a telephone interview with Attorney Susan J. Mack on June 12, 2007.

This application has been amended as follows:

1. In claim 5, after, "A method of treatment for kidney", delete, "diseases, cerebrovascular diseases or cardiovascular diseases" and insert --disease--.

Reasons For Allowance

The instant invention is an N-hydroxyformamidine compound of the formula

, or a pharmaceutically acceptable salt thereof; a pharmaceutical composition; and a method of treating kidney disease. The closest relevant art is of record. The specification discloses in vitro data showing the compound having an inhibitory effect against human kidney microsome-derived 20-HETE-producing enzyme, which is known in the art to treat kidney disease (see McGiff et al., "20-HETE and the kidney: resolution of old problems and new beginnings," Am. J. Physiol. 1999, Vol. 27, pp. R607-R623).
